Official Compliance Regulation

SECURITY STANDARDS v2026

1.1 DATA ENCRYPTION
All sensitive data at rest shall be encrypted using industry-standard algorithms (e.g., AES-256).

1.2 ACCESS LOGS
Access logs for all production systems must be produced and regularly reviewed at least quarterly by authorized personnel.

2.1 PASSWORD POLICY
Organizational passwords shall be at least 12 characters long and include multiple character types (uppercase, numbers, symbols).
